WARRANTY INFORMATION

Any component that fails due to manufacturer's defect is guaranteed for 1 year. The warranty only covers products installed and maintained in accordance with the instructions provided by their respective manufacturer and no warranty is made with respect to any of our products that are otherwise installed or maintained. For full warranty details, visit our Warranty Section.

Conformance to Codes and Standards

The EL-ST9W series is UL listed and meets or exceeds the following: UL924, ETL, NFPA 101 Life Safety Code & NEC

ORDERING INFORMATION

Series	Housing Color	Operation Type	Lamp Head Type
EL-ST9W	W (White)	BB (Battery Backup)	BE (Round Lamps)

CONSTRUCTION

The EL-ST9W Steel Emergency Light is constructed of heavy duty steel with a bright white finish. Available with round incandescent lamp heads.

ILLUMINATION

This heavy duty emergency light is supplied with two front mounted PAR36 type heads with 9W wedge base lamps.

ELECTRICAL COMPONENTS

Dual 120/277 voltage with brownout protection. Charge rate/power "ON" LED indicator light and push-to-test switch for mandated code compliance testing.

EMERGENCY OPERATION

Upon failure of the normal utility power, an internal solid-state transfer switch automatically provides uninterrupted emergency operation for at least 90 minutes. The fully automatic solid-state, two-rate charger initiates recharging a discharged battery within 24 hours.

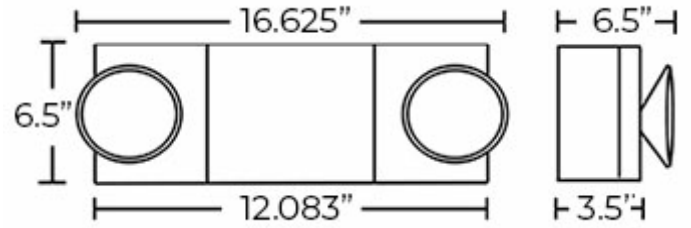

BATTERY - BATTERY BACKUP

The EL-ST9W Series has a long life valve regulated lead acid battery. Upon failure of the normal utility power, an internal solid-state transfer switch automatically provides uninterrupted emergency operation for at least 90 minutes. The fully automatic solid-state, two-rate charger initiates battery charging to recharge a discharged battery in 24 hours.

INSTALLATION

Easy installation with front access to all components. Suitable for wall installations.
